5 – 007 – PENSION FUNDING POLICY

C. PSPRS Funding Goal

Pensions that are less than fully funded place the cost of service provided in earlier periods (amortization of UAAL) on the current taxpayers. Fully funded pension plans are the best way to achieve taxpayer and member intergenerational equity. Most funds in PSPRS are significantly underfunded and falling well short of the goal of intergenerational equity.

1. The District Governing Board's PSPRS funding ratio goal is 100% (fully funded) by June 30, 2038. District Governing Board established this goal for the following reasons:
 - The PSPRS trust funds represent only the Rincon Valley Fire District's liability
 - The fluctuating cost of an UAAL causes strain on the Rincon Valley Fire District's budget, affecting our ability to provide services
 - A fully funded pension is the best way to achieve taxpayer and member intergenerational equity
2. The District Governing Board plans to take the following actions to achieve this goal:
 - Maintain ARC payment from operating revenues – the District Governing Board is committed to maintaining the full ARC payment (normal cost and UAAL amortization) from operating funds. The estimated combined ARC for FY 2023-2024 is \$932,000 and will be able to be paid from operating funds without diminishing Rincon Valley Fire District services.

Based on these actions the District Governing Board plans to achieve its goal of 100% funding by June 30, 2038, in accordance with the amortization timeline set forth by the PSPRS June 30, 2022 Actuarial Valuation.
